

## Join us for the Pollution Solutions Workshop!

**Learn how to use innovative methods to improve and reduce air pollution.**

One-Day Workshop • Appropriate for engineers, green team participants and environmental managers

The Green Specialist: Pollution Solutions Workshop was designed by Purdue's Technical Assistance Program for manufacturers and others interested in learning how to use innovative methods to improve emission control and environmental management systems, and new technologies to reduce air pollution. Expect a fun, fast-paced workshop with simulations and case studies for in-depth instruction in applying pollution solution concepts and techniques.

### Participants will learn:

- Air sampling benefits
- Methods to incorporate into emission control
- Ozone concerns and impacts
- New technologies for preventing air pollution
- How to lower emission expenses

### Green Enterprise Development

GREEN GENERALIST – 8 instructional hours

LEVEL 1

GREEN SPECIALIST – Up to 48 instructional hours

6 modules: Sustainability in Practice, Dumpster Dive, Energy Management, H<sub>2</sub>O Conserve, Pollution Solutions, Green Chemistry

LEVEL 2

SME GREEN SPECIALIST CERTIFICATE – Earned by passing exam

LEVEL 3
