

Join us for the Sustainability in Practice Workshop!

Learn how to translate a vision into a continuous and sustainable program.

One-Day Workshop • Appropriate for engineers, green team participants and environmental managers

The Green Specialist: Sustainability in Practice Workshop was designed by Purdue's Technical Assistance Program for manufacturers and others interested in learning how to develop a business case for implementing a comprehensive environmental management or sustainability program. Expect a fun, fast-paced workshop with simulations and case studies for in-depth instruction in applying green concepts and techniques.

Participants will learn:

- Benefits of using Triple Bottom Line as a sustainability framework
- How to save money with a positive environmental impact
- The impact of regulations and standards
- Values of green certifications and marketing practices
- The importance of including green supply chain in your sustainability scope
- Typical measures for monitoring a successful program

Green Enterprise Development
